

Advanced Painted Faces Workshop Preparation

1. Enlarge personal photo to painting size. It should be a very clear photo so the details show. Bonnie recommends slightly less than lifesize.
2. Make sure that you have a greyscale photo copy and a color copy of the enlarged photo you will be painting.
3. Create the guideline drawing from the photo you will be using. Refer to prior class notes or call Maureen Tinley for further clarification. 630-802-1916 cell.
3. Bring to class your brushes, fabric, cup, plate, clear plastic page protector or you can purchase these supplies at class. Partial kits will be available.

With a mixed level class, painting teeth will be covered if there are any photos with teeth.
